Luxury Island Style Living in Kahala
Exclusively presented by Donald Eovino

Indoor outdoor elegance awaits you at this oceanfront home of distinction. A formal entry opens to a long corridor, which directs you right to the oceanfront at the end of your lanai. A water feature extensively wraps around the entire side of the house creating an Island Oasis with the formal living room and dining rooms surrounded by water.

All the main downstairs rooms have pocket doors that open to the outside with deep covered lanais that create the tropical Island style ocean living of Kahala. The master bedroom takes up most of the entire front of the 2nd floor with a separate workout area/office and private master bath with double walk-in closet. The pool has a Bali style cabana with a spa connected by way of a bridge over the lanai accented by fire pots and tiki torches.
